For simplicity, style and superior technology, the Kocom Doorphone range is perfect for your family

Do you know who is at your front door? You will with a Kocom Video Doorphone (VDP). Offering hands-free operation, ability to add a second camera (e.g. rear gate), and extra monitors\handsets with the ability to talk to family and friends in other rooms. If you want to look outside at any time just press the camera button on the monitor.

Crystal Clear Image

Kocom's advanced LCD and LED back light technology offers crystal clear image and exceptional levels of vivid colour and brightness.

On Screen Display (OSD) & Touch-Key Technology

Kocom's hands-free handsets are simple and easy to use with an on screen menu display and touch-key application.

CCTV Monitoring

Users can connect additional CCTV cameras to their Kocom handset to safely monitor their premises. Motion detection technology allows captured video to be stored via the SD card input. Selected models only.

Door Release

Save time and improve access to your home with Kocom's One-Touch door release technology.

2 and 4 wire flexibility

With 2 and 4 wire options for most handsets, Kocom offers no fuss and simple installations for any application.

Multimedia Interface

Kocom's multimedia interface offers users the choice of transforming their handsets into a digital photo album, music centre (mp3's) and motion picture storage device (when applied with the CCTV interface) via the SD card input. Selected models only.
